

## **Regulation Compliance Statement**

### **REACH**

#### **(Registration, Evaluation, Authorization and Restriction of Chemicals)**

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a European Union Commission (EUC) Regulation on chemicals and their safe use (EC 1907/2006) entered into force on June 1, 2007, and will be phased-in until 2018.

SIMCO-ION supports the basic goal of REACH to improve the protection of human health and the environment as well as provide better and earlier identification of hazardous properties of chemical substances.

SIMCO-ION's products are 'articles' as defined in REACH Article (3) and do not release a substance, as described by the standard, under their normal use. SIMCO-ION's products meet all applicable REACH requirements through diligent work with our suppliers to avoid SVHC materials. Based on diligent inquiry of our suppliers, no materials from the SVHC list are known to be included in our products, in excess of 0.1% concentration by mass.

In case of further questions regarding the REACH regulation or our products please contact our customer service department.
