PFAS Compliance Declaration

Subject: compliance declaration polyfluoroalkyl substances (PFAS)

To whom it may concern,

Simco-Ion, an ITW Company – Technology Group, hereby provides the following declaration regarding per- and polyfluoroalkyl substances (PFAS).

To the best of our knowledge, Simco-Ion does not intentionally add PFAS (per- and polyfluoroalkyl substances) as raw materials or processing aids in the manufacture of our products.

This declaration is based on information provided by our suppliers of raw materials, components, assemblies, and processing aids used in our manufacturing processes.

Simco-Ion communicates applicable regulatory requirements, including those related to PFAS, to its supply base and expects suppliers to comply with all current international, federal, state, and local regulations in effect as of the date of this declaration, including emerging PFAS restrictions and reporting requirements.

Simco-Ion relies on supplier certifications and declarations regarding the chemical composition and regulatory compliance of supplied materials and does not routinely conduct analytical testing for PFAS unless specifically required by customer agreement or regulatory obligation.

Suppliers remain responsible for ensuring the accuracy of the information they provide and for compliance with applicable PFAS regulations governing their materials and components. This declaration is made in good faith, based on the information currently available to Simco-Ion.
